

James Taxidermy Supply

Dear Valued Taxidermist,

Thank you for choosing James Taxidermy Supply Co., LLC. We Sincerely appreciate your continued Business.

We are committed to providing reliable products , Consistent service, and practical solutions that help you work efficiently while maintaining the quality your customer expect. We also Continue to bring new products and accessories to market to better support your day to day needs.

We are excited to offer new line of deer forms designed for today's working taxidermist . These forms feature deeper detail and fuller leg and shoulder detail, and rigid materials with reliable build quality to help reduce prep time and improve overall fit. Whether producing high volume mounts or detailed custom work, this new line is built to streamline your process, reduce work and deliver professional results that enhance your reputation.

As we enter the new year, we wish you continued success and growth. Happy New Year 2026! James Taxidermy Supply Co., LLC looks forward to supporting your business and serving you for many years to come.

Please note that shipping costs are determined by carriers and are outside our control, and ups rates continue to increase annually. Shipping to a commercial address is typically more cost effective then redsidetail

delivery, and customers with their shipper numbers are welcome to use them when placing orders. We use multiple shipping carries and sources now on shipping. We offer the lowest shipping possible.

May God bless you, your business, and your families.

James' Taxidermy Supply, LLC

(EXCLUSIVE)

**KENNY'S STICK-IT
HIDE PASTE**

**No 1. On the Market
everyone is talking
about.....**

Hide Paste works well with tan, dry preserve and Sure Cure method hides. Sand or wire brush form. Clean up with soap and water. When sliding hide over James' forms, you can mist Sure Cure or water over

Stick-IT to help slide hides easier.

Keep out of reach of

children. Available in Quarts, Gallon, 2 Gallon, and 5 gallon

Pinchback Skulls

The Original European Skull

They're Back !!

Pinchback Reproduction skulls are a great replacement for a missing or damaged skull. The open eye socket skull and attention to detail will make even the hard-to-please customer wondering, "Is it real?"

Each skull comes in two styles: one with pedicals, and one that is slotted or what we like to call convertible. Antlers are measured to the skull by the size of their pedicals, the diameter of the bone just under the antler burr. For those not wanting to remove the antlers from the skull cap, the slotted or convertible skull will be the correct choice.

The convertible slot size may look the same, but the skull sizes are different: use the small skull for small antlers and the large one for large antlers, keeping the antlers proportioned to the correct size skull is important and looks better.

Each skull comes with a block in the brain and sinus area for easy attachment to a panel or you can just attach a hanger to it.

For those customers wanting something different, you can offer them a camo-dipped skull: vista gray for the traditional camo look for the guys and pink mothing winter mimicry for the ladies. These patterns are in-stock for all four sizes of the whitetail deer skulls. Ask about special order pricing in the camo patterns for the other types of skulls we offer but don't stock.

PASP

Pinchback Skulls

The Counterfeit skull looks just like a natural skull with teeth, but its artifical. The detail is exceptional . The Brain area is hollow . The spinal cord hole is open, and it allows for several different options relating to hangers, just like the natural skull. The counterfeit pedical skull comes with (2) aluminum square peg for attaching antler to skull.

They're Back !!

Mohrs Jaw Sets Base Color

Mohrs jawsets are superior in the finest quality. The base color makes it were you dont have to guess the paint work and can blended very easily . The tongues look life like being textured and do not need painting . Mohrs jawset sets work good with Ozarks and Noonies small game bodies . Dont forget to get jaw juice for your jawset .

Attention : All jawsets come complete with tongues.

Bobcat Nose Paint Kit

Have you struggled with getting the right color on a bobcat nose? Using Ozark Woods' repro noses and this new paint kit, you can achieve that perfect color. It comes with colors for the pink and orange color phase of a bobcat nose. Comes complete with a high quality sable brush, and paint. Paint dries in about 2-3 hours. Instructions included.

Krowtann 2000 and Special Whitetail Deer Formula

This is a true tan that is very simple to use. Simply rough flesh the skin, place the skin in the Krowtann mixture for 3 - 4 days, then neutralize and do your final fleshing. The skin is now ready to mount. This tan has a good stretch, very little shrinkage, good hair setting ability, and very easy to re-hydrate for correcting flaws. Complete instructions included. "Krowtann 2000" - Small and Large Mammals, Bears, Hogs, and anything else. "Special Whitetail" - Deer, Elk and similar.

Krowtann 2000

For Large & Small mammals. This is a true tan that is very easy to use on any animal from bobcats to bear to alligators! Directions on the bottle.

KT 2000 Qt. - \$ 35.00
KT 2000 Gal. - \$128.00

Krow - Oil

This is a very good oil that works very well in conjunction with "Krowtann 2000". If you are wanting to do rug or flat tanning with Krowtann 2000, we highly recommend using "Krow-Oil". Good results can be obtained without any breaking for your rugs or wall hangings. Krow-Oil can also be applied to a cape or skin to make the skin to give even more stretch and to make the skin even more soft. Complete instructions are included.

KO Qt. - \$24.00

Krowtann Special Deer Formula

For deer, elk & similar game. This is a true tan that is very easy to use on any animal from bobcats to bear to alligators! Directions on the bottle.

KWTF Qt. - \$ 35.00
KWTF Gal. - \$128.00

Krow - Soap

This is the finest shampoo for your mounts that you can get. This will leave your small mammal mounts with full and extra soft hair. Once you have shampooed a mount with "Krow-Soap" and see the difference that it makes, we don't believe you will ever mount another small mammal without it. If you don't believe it is that good, try it on your own hair.

KS Qt. - \$24.00

Code	Price
PKFLY	\$ 11.00

Plug in Turkey kits come with 2 leg wires, 2 wing wires, 1 neck wire and a one tail wire (Flying kit has a flying support with 2 threaded rods). The plugs are made to go into a 5/8" hole drilled into the turkey form. The wires are attached to the turkey wing bones and leg bones in the same way as traditional wires, then the plugs are glued to the form (I prefer Gorilla glue for this).

Tanning & Mounting Supplies

Developed by award winning Taxidermist.

No.1 preservative on the market that everyone is talking about.

Sure-Cure - Liquid Perservative by: Paul Witt

Directions: Skin out deer head as usual, turn ears, lips and eyes. Flesh off all red meat (rough flesh). Salt or Sodium Sulfate the cape thoroughly. Hang up and let drip for 2 or 3 hours or overnight if needed. The salt or sodium sulfate will draw most of the fluids from the cape. After it has dripped, wash cape thoroughly using Kemal 4 or some other detergent. Rinse in clear water, make sure it is washed enough to get all of the salt out. Flesh cape completely. Put Sure-Cure in spray bottle and spray a moderate coat on raw side of entire cape. It will absorb in a very few minutes. Put a little tanning oil on inside of nose pad and around eyes, and mount as usual.

Qt. - \$17.00	1/2 Gal. - \$30.00	Gal. - \$50.00

Stop-Rot

Saver for birds, fish and mammals!

Stop-Rot was developed by Glen Conely to extend the working time on a green hide by slowing down or stopping bacterial growth and decomposition. Paint on liberally, on the skin side of mammals once the large areas of meat and fat have been removed. It can also be painted on the hair side of un-turned ears. Also may be used as a brush on rinse off slime remover for fish. For birds inject feet and legs with stop rot before freezing to prevent freezer burn. Stop rot will "Float up" Coagulated blood from around bullet holes allowing easy clean up and wipe with paper towel.

Hair Set

Hair Set will permanently fix hair and fur that is starting to loosen. It can be used on raw, salted or pickled skins. It works by converting putrefying protein to a Permanent stable material.

Hair set	Qt. \$25.00
----------	-------------

Bird and Fish Tan

Fish & Bird Tan is developed specifically for tanning birds and fish for taxidermy use. Can be used on many different species.

Bird and Fish Tan	Qt. \$ 32.00
-------------------	--------------

Mount Shield

A highly concentrated, water soluble treatment for birds, hair on hides, fur skins and existing taxidermy mounts. It repels most feather, hair and fur eating insects such as carpet beetles, hide beetles (dermestids) and their larvae. Mount Shield Concentrate also cleans the hair, fur, hide and feathers to reduce food substances which can attract insects.

MTSHIELD	Qt. \$35.00
----------	-------------

Hide Relaxer XL7

This is a highly active concentrated rehydrating agent for hard, dried and difficult to rehydrate hides and skins. It is fast activating, which lessens the chance of bacteria growth and hair slippage. This product is stable in the presence of electrolytes which aides in the penetration of the tan.

HiderelaxXL7	Qt. \$31.00
--------------	-------------

Hair Gloss & Conditioner

Hair Gloss & Conditioner provides a natural shine to dull hair-on hides or fur skins or to previously finished mounts. It conditions dry hair while also leaving a pleasant smell. Hair Gloss & Conditioner can be applied using a cloth or it can be used in the sawdust drum.

Hair Gloss	Qt. \$27.00
------------	-------------

Swab Oil Med

Swab Oil MD leaves a nice non-oily feel to the leather. It is recommended for use on deer, antelope mountain lion and other like hides and skins.

Swab Oil Med	Qt. \$28.00
--------------	-------------

Swab Oil LT

Swab Oil LT leaves a nice non-oily feel to the leather. It is recommended for use on small fur bearing mammals such as rabbit, fox, racoon, coyote, wolf, and other like skins.

Swab Oil LT	Qt. \$28.00

FLESHING MACHINE AND PARTS

The Original

Flesh-All Mini-flesher

Our original model is an air powered, hand held fleshing / shaving tool that allows the user to quickly and easily flesh and thin hides for taxidermy and tanning purposes.

The Mini-flesher uses a thin serrated blade rather than a fleshing type blade like the big circular fleshers. Our blade works on the principal of a high speed tearing action rather than a sharp cutting action.

The mini-flesher is a variable speed unit, the blade guard is fully adjustable allowing a wide range of cutting depths. The guard is very close to the blade allowing total control when fleshing around tender areas.

The recommended air supply for the Mini-flesher is an air compressor of 2 horse power or larger with a comparable sized tank. Recommended running pressure ranges: 45 to 90 p.s.i. The Mini-flesher uses approximately 4 cubic feet per minute of air at 90 pounds of pressure to run at full speed.

12" Fleshing Blade

12" dia. Stainless Steel
with extra wide 1/4" lip.
Great for fleshing big game.

Orders received by 12 pm are shipped same day if possible

James Taxidermy Representatives

have a strict policy of repeating all orders back to customers.

The items that are read back and agreed upon are the exact items that print out on customers invoice . Our representatives will patiently review your orders as many times necessary to ensure accuracy.

Pickup Orders: All Customers are welcome to arrange to pickup their orders . However, to ensure that all your products are ready when you arrive, we ask that you place your order 24-48 hrs ahead of time. For x-large orders allow a week or 2 weeks even though it could be less.

Forms of Payment:

We accept VISA, MasterCard, Discover, Debit Cards Only. Checks will have to have picture ID with Drivers License # and clear the bank before processed.

Return Policy:

There will be a 10% restocking fee on all orders returned within 30 days of original invoice shipping date. No orders after 30 days will be excepted for return. No altered forms or forms tampered with, in any way be accepted for exchange or return.

No (UPS) C.O.D. Due to insufficient funds and Refusals.

Mississippi Residents add 7% Sales Tax

Orders under \$25.00 have a \$3.00 Handling Fee

Returned checks have a \$50.00 Service Charge.

Worthless Checks are Prosecuted.

Due to price increase beyond our control.

Catalog Prices are subject to change without notice.

All forms in this catalog are copyrighted in Washington D.C.

Any copying of these forms or parts is strictly prohibited and will be prosecuted.
